

July 21, 2020

Dear Families,

We need to inform you that there was a positive case of Covid-19, of a family member of one of the enrolled children at our Ormond site. As a precautionary measure we are closing the center and will reopen on July 29. We will take this time to deep clean, disinfect and sanitize the center.

During this time of pandemic, it is important to have open communication to keep everyone healthy and safe. We ask that you please communicate with us if you or any family members experience symptoms or are ill. We have posted information about free testing centers on our social media for you to access.

We realize that closure may be a hardship for you and your family but appreciate your patience as we follow protocol from the county health department.

Our education team will provide distance learning activity packets to the students during this time of closure. Packets will be mailed out.

If you have any question please email or call me.

Sincerely,

Aida White
